

Advanced HD MPEG-4/2 Set Top Box

DMS-2042-HD

Evolution's digital high definition DOCSIS Set Top Box offers a sleek new design and full digital performance capabilities. Evolution's DMS-2042-HD is both MPEG-4 and MPEG-2. The DMS-2042 is universal with dual displays on both the front and top to allow for wall mounting. This feature will allow subscribers to hide all cords and mount their Set Top Box directly below any wall mounted flat screen TV.
